Description

**Session Length:** 30+ minutes

My puppy, I am about to take you to a whole new level of HYPNOTIZED-BLANK-MINDLESSNESS to a place so deep that even if your conscious mind is resisting (Don't worry, you will be too weak for that, I was kidding about your conscious mind resisting) your subconscious is still there, still listening, and it wants this to happen, and it's going to let it happen, even if your conscious mind tries to stray. Don't be silly.

THEN, when you are completely and utterly ENTRANCED (with your eyes rolled back into your head), I'll take you even deeper. I want you to imagine something for Me, you can do that can't you?....I know you always do what I want. So, just imagine what it will be like when your mind goes completely and utterly blank. That's right. Completely and utterly BLANK and empty. IMAGINE, NOT a single thought of your own, you have no other thoughts in your mind, all you hear, all that exist in your mind is MY voice, My words, My TRIGGERS...My commands. Blanking out every other thought, every other action, everything else in the world. Imagine that! Imagine what it would be like to be VOID of everything else. This is where I am taking you...Prepare for the fall.

I love TRAINING you over and over and OVER again! Repetition is the LAW of your Domina and the LAW of Hypnosis.

i love when Domina does this to me, hypnotises me so deeply that i am left with just feelings and whispers of Her voice. Not much of a review because i don't really remember much, but i love how it felt, i know it has helped me with subsequent files and i love going back to this one. i love submitting to Domina.

Amazing - I woke up sometime later after starting this, and felt amazing after. I have no clue what is in the trance, the more I try to remember the more i seem to forget. i know that i am blank and mindless for Domnica.  
Would strongly recommend using this before any other files to achieve their maximum effect

Amazing how effective this is. I just listened this and I have no memory what happened. Nothing at all. It went by so fast, it actually is 30 minutes, but it felt a lot shorter.

The blank state of mind is the core of deep relaxation and a guarantee for a great hypnosis session. So important but sometimes so difficult to reach. I choose this session when my mind does not desire the kinky stuff but just wants to relax. I also love it when my mind craves the kinky stuff but cannot focus on the session – "Blank State of Mind" is a great preparation. It is a must-have training for beginners as well as for the advanced and like with all hypnosis sessions the key is to listen and to follow the voice without being too critical.

A really excellent file as always. I had to listen to it awake, as I couldn't remember what was in it. I really love this kind of file, when you are programed but can't remember what has happened. A good programming file, I highly recommend it.

i love listening to this file. i've listened to it every day since buying it over a week ago. my words can't really accurately describe what Domina does to me in this file.

I've been listening to this as a prelude to going deep into other files. So strange to wake up after a while and wonder what happened, craving to serve and obey Domina.

i am not pr but i happily report this session was not easy to recall. This in part is because when you awake from trance you are hit with

the euphoria of being owned by Domina and will a powerful craving to submit to Her in all the ways that you can. Bombarded with these feelings and a strong emotional attachment to Domina, it's very difficult to think back through the session and definitively state that is what i heard. This session is all about binding You more closely to Domina and be under know illusion if you have any admiration for Domina prior to this session, after listening to it this will be amplified. She has the power to do this and in this session She demonstrates it.

This file seems to be the foundation of a lot to come... I was so deep, relaxed and happy after listening to this file. The need to listen to this file over and over is overwhelming and strong.  
Prepare yourself to be addicted and obsessed about this file. It's pure power and bliss...

i woke up incredibly aroused, feeling so very submissive, owned and controlled. i felt completely overwhelmed by what had just happened to me – what words Domina had just whispered in my ear. i cannot remember a thing about this session, just how i feel upon waking up – and the feeling is INCREDIBLE. Just totally dominated to the very fiber of my being. My cock is rock hard for Domina and only for Domina. She owns my cock and my orgasms – i am deeply in chastity for my Domina. When i first started listening i had no interest in chastity at all – and yet here i am. That is the power of Domina Shelle. And Her power is on full display in this session. i cannot remember what happened. And that is i think, my favorite kind of session. The ones where Domina programs me with her own special secret words. Those words are sunk deep into my mind and they will be there forever. This is how it is supposed to be. i have been taught by my Domina. i am owned.
