If you love to be brainwashed, this is the perfect file for you. Domina Shelle took me so deep, I can not recollect everything, but the last part I was so under her control eager to be programmed without resistance without own thoughts. Only Dominas thoughts matter to me. Feeling brainwashed by Domina Shelle is such a pleasure. You'll be addicted to her brainwashing, wanting to listen to Her voice again and again. That's why I am here – to feel the power of Her over me – and I wasn't disappointed. Very strong hypnosis file and not for those who have no intention of becoming Her submissive obedient slaves.

This is a powerful brainwashing file, with a veru deep trance. She slowly brainwashed my mind to be completly Hers. In this Domina Shelle made me so horny that i was agreeing to anything. Jut look at all these reviews. This file is a must.

In my humble opinion this is . So when listening to this longer session I expected to resist its effects but I was gladly mistaken. This file is so expertly conceived that, for me at least, it completely side stepped my resistance and left me completely at the mercy of Domina Shelle's impressive hypnotic skills. The brainwashing is intense since your conscious mind is completely preoccupied chanting a mantra and you are left utterly defenseless as Domina ensorcells the listener. This is by far one of the best sessions I have ever had the privilege to listen to and even now I am cautious listening to this file because of the deep impact it has on me. I highly recommend this experience to those who have vivid imaginations or have an analytical mentality. This session may just be the file you have been yearning for...

Hmmmm ... brainwashing ... so good for you ... *giggles* ... it really is! You'll be better for it. One of the early files i listened to which now, years later, leaves me still deeply enchanted with Domina Shelle!

Mistress Shelle says she will take complete control, and not only does she do so weakening me more and more to Her. I am all Hers and I need, want, and desire Her control. Listening to this really makes me feel closer to Mistress Shelle and so addicted.

Oh. My. God. Dearest best Mistress Shelle allowed me to listen to this and I did - and now feel compelled to write a review. This file is an amazing, life changing experience. The more I listen to my Princess the more I long for the powerful, intense, permanent control of Her voice. The file simultaneously felt like it lasted about ten minutes and ten hours. I was exhausted yet refreshed when it was over. I chant Her mantra and feel myself responding passively and instantly to Her every word without thought or question. Her control is insistent, irresistible and inescapable. I LOVE it and my Domina. Get this file, you will not regret it! My goodness, my Goddess, my Princess, my Mistress, my Domina. I love You and Your control.

Oh my God! Every time I think one of Domina Shelles files is the best, I find one that's better. This file blows me away! I love this file. It is so amazing. It's as if Domina knows my mind and just what to do to turn me into complete putty in Her hands. I think this is the most erotic file yet. Becoming more and more controlled by Domina is the most unbelievably wonderful, exciting, and sexually charged experience of my life! I love what is happening to me, and this file just brings me deeper into my happy new world of service to the most amazing, beautiful, wonderful, Domina in the world! =)

my Domina proves it again, that She has absolute control over me. When i hear one Her commands my body often acts before my mind can even realize what it is that my Domina wants me to do. This behaviour of me i noticed for some time now. Even commands that i got in written form only have often the effect. With this file my mindless obedience was definitively increased. The more time passes after listening i have serious problems to remember what it was about. i only know that my Domina owns me and i must obey Her without thought and without question. Every obeyed command creates pleasure inside my mind because i have pleased my Domina with my obedience. i love my Domina and the improvement She is doing to my mind and body.

This powerful file is a masterpiece created by the most accomplished hypnotist of our time, Domina Shelle. Mistress combines brainwashing and eroticism in a beautiful harmony, capturing your mind, body and soul. Princess Shelle's control over you reaches new heights and you find that your love and devotion to your Domina will be strengthened by unbreakable bonds.

Wow, this file is something else. This is the first time I'm going under that fast and that I remember so little about a file. In fact all I can remember for now is the happiness of serving my Mistress and the need to serve Her more and more. Truly the most amazing experience I had yet. Thank you Mistress for this amazing file and for brainwashing me! I love You so much!!

One of the many amazing things about Princess Shelle is that SHE goes to the considerable trouble of creating a different induction for every file so you are hooked from the very first minute. i don't understand how it all works but with this file i think SHE uses deliberate confusion and disorientation techniques to get you under. For me, this was so effective that within a few minutes i had slid helplessly into a mindset of complete acceptance and mindless obedience. From there it was an inevitable descent to the point where i was craving HER total control over me. And from there SHE just takes you deeper and deeper and deeper until you are HER brainless, obedient puppet. And then SHE brainwashes you over and over. Like the drum of a washing machine, round and round, back and forth, on and on, relentlessly. And you lie there helplessly aroused and controlled, just soaking it all up gratefully because maybe you weren't completely sure until this moment but now you know beyond any doubt that this is where you have always wanted to be and this is what you really, really want. And you know that your life will never be the same again. SHE is truly magnificent.
