Description

Coercive Bondage (38 minutes):

My pet, you are here because you feel compelled to surrender deeper into My hypnotic world, a mystical haven of submission and control, a place you crave so fervently it defies all logic and reason. your primal impulse to submit is the product of powerful indoctrination, your open susceptible mind probed and conditioned by a succession of sophisticated suggestions that have stripped away all of your resistance, leaving you (metaphorically) naked and prone whenever you think of Me, the Dominant Mistress of your dreams and fantasies.

This power exchange is not unlike physical bondage, you, **hogtied, immobilized**, naked at My feet, completely at My mercy as I take full control of this session. In the moment, you exist to fulfill My erotic needs as I impose My brand of total domination and absolute authority to subjugate your mind and break what is left of your free will. The TRUTH about Hypnosis is I can make this scene very real in your mind, so vivid and sensual it will leave you gasping for more, a lasting impression on your submissive psyche that will reinforce the inescapable belief that your enslavement to Me is the true focus of your existence. (giggles)

Don't deny you want this, you're already horny and aroused reading these words, your mind

racing with desperate desires to surrender to My voice, to relinquish more of yourself to My control knowing each time you relent, My programming penetrates a little bit deeper than before. **Coercive Bondage** is a sensual extravaganza to remind your subconscious mind of the endless pleasures only I can give you and, in return, you must submit completely to My authority forsaking all aspirations of being a freethinking individual.

To Love, Honor, and Obey your Domina is a journey into selflessness, being one with submission, and putting Me ahead of your own needs and desires. Being My adoring faithful servant, is to be a thrall imbued with My essence, intense erotic pleasures that promote the realities of your submission to Me.

My subservient pet, I am here to perfect you, to train you, and to nurture you. With My Love, My Truths, and My Authority you will be the best version of yourself for Me. So, relinquish your thoughts, silence your mind, and allow Me to open up your heart as I hypnotize you so deeply you will forever be captivated by Me.

Truly one of the hottest Hypno-bondage fantasies it has ever experienced. The thought of being so helpless, enslaved and complete mercy of Domina Shelle is the definition of Hypno-eroticism.

The truth about hypnosis: it is bondage of the mind. So many time Domina's voice has led me down and it does not matter if i focus on the stairs or count the steps or don't pay attention at all: i end up down there where She is in total control. She knows my weak spots, the pleasure buttons and the breaking points and she uses them all to rebuild me. i have been transformed in so many ways already down there while She toyed with my mind, while She pulled me apart and reassembled me to something new that my mind patiently waits on Her commands. On the last step I am nothing down here - just a piece of clay without shape or purpose unless Domina gives me form and meaning. Coercive Bondage is a pleasurable lesson in letting go and being transformed and worked with. I am Yours, Domina!

It has been many years that I realized that I am with Domina Shelle forever. She coerced my bondage by her, for her, and to her so long ago. It is my reality every day. The desire for the bondage to become both more literal and figurative is constant. Her goal is my goal. I have no choice. This session is very powerful. My body and minds now responds to her like I'm hard wired to her commands and programming. My bondage is permanent and forever.

i am amazed at how the thought of being tied up by Domina and whipped makes me so fucking aroused, horny, hard and wet. Then there is the induction She used to put me into trance. i am so well programmed, that i just fall very deep into trance just by Her telling me to do so. Her visualizations of Her dungeon made me believe i was really there. The tying of the knots made my wrists feel constrained. It was an incredible sensation. i love Dominas control. i love how She makes me feel. i keep wanting more and more. i want to be weak. i want to be broken. I want to be submissive and obedient for Her. i will always Love, Honor and Obey Domina Shelle. She is my Domina and i will do anything for Her.

Falling prey to Domina's control feels so right, but it's feels even better when you have no other option and you are treated with such care. Her power shows itself with full force it this session, but at no point does it ever feel out of place. Being tied at her feet was always an eventual outcome, no one can resist.

i never thought id be writing to beg a Sweet Dominant Woman to strike me with Her riding crop!
Oh, how things have changed since I've let Her take control of my mind and this file just proves it.
It is pure genius and very clever how She twists the sting of Her crop into controlled Bliss.
Making your mind grovel to Her to personally with Her own hands while talking to you with Her Angelic voice whip your thighs.
Genius, Pure Genius!

I know this isnt a popular view for most of Dominas submissives as She is a soft loving Domina. But the thought of of my Dominas beautiful perfects hands holding a whip, and Her beautiful fingers wrapped around the handle of the whip as Her beautiful arms brings the whip down on my legs and a\$\$\$. I'm not heavy into pain but if that pain is inflicted by Domina Shelle, I'll love every beautiful moment of my beating

I do not generally like physical pain, so I was expecting this to maybe be beyond my limits. It was rather the opposite. So very relaxing and calming. Just what I needed. I love being where I belong. It fills me with such warmth and pleasure. As long as I can be there, then I know I can be strong for Domina and be the person She needs me to be <3

I loved this session! It seemed like the perfect time for Domina Shelle to step up and change up her training ... show her submissive subjects who was the dominant one! I would go to Domina's dungeon anytime. At the end it was all broken down explaining the experience putting all in place. Domina paints a great hypnotic picture taking the listener where she wants and this was amazing. Her relentless control is always changing as the soft, weak minds are evolving! Will listen again and again in anticipation of what may come next.
