Description

### Dripping Orgasmic Pleasure (25 minutes):

Before I pull you down into a most erotic Valentine's Day trance, just imagine yourself in a nice fluffy bed...Imagine your body snuggled next to a warm soft pillow. This bed is so perfect for you, it is a place that I have created inside your mind...and no one knows about this place but you and Me...It's O/our secret place...A place where W/we can be together all alone away from the outside world. Feel Me with you now...right next to Me. Breathe in My perfume. My scent intoxicates your mind and makes you weak for Me.

Soak up the passion as I invade all your senses.

As My sweet voice slips into your subconscious, feel the burning anticipation. **Like a sexual wildfire burning through your brain**...it feels as though your mind has slipped down right between your legs. I love seeing you this way...drop for your Domina and OBEY! Fall into TRANCE...Fall into My warm embrace. **I'm going to DRAIN you.**

Wow what an amazing session. As the title states Dripping Orgasmic Pleasure. Oh boy was it. Domina has a unique way of making it all build up into an explosive event. i just love how She can take our minds, massage them into a dripping, yearning mess that makes Her erotic words that much more effective at making you so damn horny you are at the edge of eruption. She then takes You over that edge with Her new trigger which helps re-enforce it even more. i loved this session. Its certainly made my favorites list. If you ever want to feel what its like to loose control, buy this session.
