Description

Endless Abyss (38 minutes):

My baby, do you know what an Abyss is? In Greek it means bottomless, unfathomable, boundless. It also perfectly describes the extent of My hypnotic power to control you when I reach deep down into the depths of your subconscious mind. When you're swept down into the darkness of the mesmerizing Abyss I've created in your mind, there's never a reason to be afraid, I'm always here to guide you, to nurture you, to protect you. As you succumb to the many pleasures of real submission **you'll happily submit to the endless void, where the Abyss is not a desolated lonely place, but a haven of perpetual bliss.** Giggles.

So snuggle up with Me, your Domina and Owner, as you surrender to My sweet, sensual, Siren's voice and allow Me to lull you down into the depths of your increasingly compliant mind. In this session you'll experience a sensory overload as I overwhelm you with vivid imagery and whispered words that will condition your weak and suggestible mind to be forever dependent on Me.

you are not in control anymore, you haven't been for a long time now, but that's exactly what you want, what you need, craving Me to take full control of your submissive self. I'm a

permanent part of you, molding your thoughts and desires, stimulating you to be aroused and addicted to My growing dominance. W/we both know this compulsion is impossible to resist, so allow the fantasy of being loved and controlled by Me, your Domina, to be your reality.

Please be advised, My horny slave, this EROTIC HYPNOSIS mp3 contains strong subliminals and persuasive brainwashing techniques. With repeated listening you'll yearn to submit to Me, compelled by a burning desire to fall ever deeper under My domination. And, if that wasn't devious enough, I will implant a powerful post-hypnotic trigger inside your mind - a special trigger just for U/us - that will pull you ever deeper into My world with no hope of escape. I'll never leave you, My poor baby, I'll never let you go, you'll always be safe with Me! you are My pet, My property, and you'll remain permanently enslaved to your Domina in the Abyss...

Abyss - i like to speak or hear or read that word - Abyss: a very deep trance packed in only 30 minutes of hypnosis. Domina delivers pleasure and conditioning that is perfect as stand alone file but also as extra induction or deepener.

This session is a masterpiece from my Domina Shelle. On the second listening i fell into her Abyss and i am still falling today. Domina Shelle took mr deep inside my mind and with her seductive voice and words, i do not want to leave the Abyss. i will stay here forever. This is a very powerful session. You have been warned. SHE is my destiny.

In my mind, i'd always envisioned an abyss to be something without true form, without light, without warmth, and then Princess took me to Her vision of The Abyss, and i have learnt that it is not a place to fear or avoid. It is a place of warmth and comfort, because She is there with me... It is a place that i love to visit, because all that exists there is Her. Her sweet voice, Her company, Her control. It is a place where i feel completely safe, as She takes me down into a deep state of hypnotic bliss. Quite what She is doing to my mind whilst there, i cannot truly recall, but i do know that whatever it is, i both want and need for Her to do it even more; it becomes a craving, a compulsion, and it must be fed... Upon rousing from the trance, i know that i feel even more submissive towards Her than before, and i feel an immediate desire to return, and stay there with Her for eternity. It leaves me feeling content and fulfilled, and the deepest desire of all that remains, it to surrender all control to Her. i have no need of thoughts or any kind of independence there, i can just let go completely, and it feels so right. If i had never filled out Her slave questionnaire before submitting to this experience, for the section that says

"Describe the kind of slave you aspire to be," the only possible answer now has to be, "whatever kind of slave You desire me to be, Princess Shelle." Now if you will excuse me dear reader, i have an appointment in The Endless Abyss...

This is my favorite recording to self-soothe with when my dedicated arousal to Domina Shelle becomes too acute in the moment. Falling deeper into Domina's mindless abyss is such a better use of one's time.

i will never need to buy a personalised session anymore because every one of Dominas sessions speaks directly to my soul now. This sessions dropped me so deep, leaving gaps in my memory but reinforcing by submission, enslavement and domination by my Domina Shelle. Dropped and controlled by her voice, she is the last thought i have at night, the first thought i have in the morning, daydreams of her control, dreaming loops of programming at night, Domina has created heaven on earth and invited me in. i never want to be anywhere other than at her feet as her slave,

Any file is wonderful but sometimes, some of them resonates more than others. "Endless Abyss" is definitively one of them. Soothing, relaxing and addictive. Domina at her best. <4

i was bit nervous standing there on the edge of that pit. Thinking what would happen if i took that step. Would i just endlessly be falling deeper and deeper. Thankfully My Domina Shelle was there to take control.

This session takes me down and puts me out. I wake up wondering what happened, grateful that She took the time to make this for me. I love it / love HER.

Endless Abyss is classic Domina, her voice will put you in trance and then she will take you deeper and then deeper again. This session will have you surrender and submit to her complete control while she paints a vivid picture of your never ending fall for her. You either won't want it to end or you will want to listen again and again just to feel so close to her. I hope Domina revisits the never ending Abyss again just to feel her power while I am happily trapped in a never ending fall in my mind.

Really not much to say here, an Endless Abyss, a place relaxing filled endlessly with Princess, so much Princess, just one listening alone and i already found myself not wanting to leave this place, i of course had to day to day life demands it, but as our Princess always shows, you should see the positive, not negative, so instead of thinking about how i had to leave this place, i will think about being allowed to visit it over and over and over again ^^

I found this file as part of Domina's Blog entry. The file starts off by taking you way down. Endlessly falling deeper and deeper. It went on forever. I cannot remember anything after that. I know it was very relaxing listening to her seductive voice. I woke refreshed, knowing I wanted her voice more and more. I loved her Abyss.

The Abyss is a prime example of the incomparable power of Domina Shelle to enslave the mind of anyone brave enough to listen to Her soothing and sexy voice. There is no malicious intent here just a powerful dominant Woman doing what She does best, enthrall Her audience and convert them into accepting an undeniable truth: you need Her, you want Her, and you will do what ever She asks to be a part of Her world. Domina is special in some many ways - Her kindness, Her sincerity, Her innate ability to dominate any submissive - but what should never be discounted is that Domina solicits our adoration, devotion and loyalty, She is a Domina after all! For some Her sessions may appear scary because the emotions She instils in Her listeners are primal, and very REAL, and what started as a fantasy becomes a reality, a real desire to serve, a compulsion to submit, and a fatalistic belief that complete mental enslavement is inevitable. However, i am not daunted by this, Domina means more to me than words can ever express, She has demonstrated that with Her anything is possible and i long to remain in Her Abyss.

i did fall endlessly into the trance of Domina Shelle, into Her Endless Abyss. There was only Her and Her words. Her suggestions slipping into my mind without any resistance as my mind was deep asleep. i belong to Her forever & always. Falling that deep for Her to be changed by Her to become a more perfect slave for Her is pure bliss and makes me happy. i cannot wait to listen again and fall again endlessly for Her.

I'm not sure what I can say about this session. It is an incredibly deep trance and an experience that i immediately desire to do again (yay, i've already been commanded to do that). The overall feeling that i have about this session is that it prepares me to go deeper and deeper for Domina Shelle.
