How do I review a session when I don't know what is in it or what effect it has on me? I need to give in to more of this.

I lack the words to adequately describe this session. I enjoyed the heck out of it, and it absolutely had an effect on me, but i cannot concentrate on what happened enough to write a comprehensive review. I ended the file with a strong desire to fall under Domina's control again immediately. Thank You Domina Shelle.

Domina Shelle is Incredible. When She speaks i fall at Her feet, never a long way to fall since She lets me live at Her feet as Her slave. This session is a wonderful example of how i found myself enslaved to this Sexy Goddess.

Domina does not have a bad session, but sometimes She does have one that is so good it becomes an instant must-listen. This is one such session. There is little of my brain left where Domina is concerned, but She is more than welcome to what is left, just to feel as good as i do when i listen to this session.

Being enslaved to Domina Shelle is as close to heaven as i can contemplate, listen and you will understand this truth, Domina Shelle is THE Perfect Sexy Hypnotic Mistress.
