To all the ones that want to become more feminine, this is a MUST buy for you!!
i dress up when ever i can to let my inner sissy take command... giggles ... in fact i think she never really vanishes anymore... yes i am a sissy, i am a sissy slave of Domina Shelle and i am proud of it. i enjoy wearing my huge breasts and a bra to support them. my corset is giving my a nice hourglass figure... giggles... and walking in heels became normal as i strut around in them... in fact walking with normal shoes feels strange to me. With my sissy stuff i feel happy, proud, sexy and aroused... i love it... thank You my Domina for this wonderful sissy package!

Whenever I listen to this series I wake up completely dressed up and wanting to spend the rest of the day indulging in my femininity. The thing I crave most is reading my fashion magazines still all dressed up but I need permission for that. I also crave going shopping at the mall or relaxing with a nice chick flick. Thank you Domina for bringing out my femininity, leaving me happy and smiling, feeling like your perfect sexy sissy slut. I look forward to spending a lot my time from now on in my bras, corsets and stilettos indulging fully in my femininity. And I look forward to future sissy training our Domina has in store for us.
