Description

Hypno Toy'd (35 minutes):

My sweet obedient plaything, through My erotic hypnosis training I have programmed, conditioned and indoctrinated so many willing subjects that many have truly lost their will to Me, becoming My mindless obedient toys. Playing with My Hypno slave Toys is always so much fun - wonderfully wicked fun - and your delectable Domina loves nothing more to wind down after working so hard, by playing hard with My toys, really HARD. (giggles)

I particularly enjoy the process of transforming you from a lucid subject to an objectified toy, surrendering to the pleasure of powerlessness, fully accepting that when W/we play I pull all the strings. It really is a turn on to live out My fantasies as that blank vacant expression washes over your face as you slip easily under My control, ready and willing to fulfill My every wish as I explore new delicious and devious ways to tease and deny you, driving you wild with lust until there's nothing left of you but blind unthinking obedience.

Hmmmm, it's such a rush to strip you down, completely naked, physically and mentally, before My eyes, knowing you're completely lost in a sea of desire for Me: The desire to serve, the desire to please, the desire to be whatever I want My toy to be. And here you are again, ready

for Me to play with, HARD, HORNY and dripping for Me, mentally bound and helpless, and fully acknowledging your helplessness to resist My unrelenting control and Absolute Authority over you.

So, prepare yourself to be erotically tortured, imprisoned in your own mind where pain is replaced with rapturous pleasure, fear with unwavering adoration, and desperation with the knowledge that only I can make you feel this way. This is what awaits you as My Hypno Toy, so allow Me to fuck with your mind and I'll show you what true submission means to a powerful Dominant Woman, Me, your devastating beautiful Domina. Trust Me, you won't be disappointed... Kisses

Toys do not feel guilt or shame or fear. Toys have no concerns or opinions. Toys have purpose! And the purpose is to give joy and pleasure.
Domina knows how to play Her Toys - even when she shows Her wicked side!
I love this file!

This is such an incredible example of Domina Shelle's expertise, power and control! This session will leave you begging for Domina to play with you for just a moment longer!

This session is the perfect example of Hypnotic Domination at its very best. It's deepener sequence is one of my all-time favourites. It reminds me of a dream/fantasy i used to have years ago about being incarcerated in a fully automated prison. Now, while this isn't one of Domina's more complex files, don't be fooled! This session makes up for it by being efficient, refined and highly effective. Before you know it, Domina Shelle will have your mind and body primed, ready to be Toy'd with.

What it would do to make this experience a reality. OMG this was super hot hypno female domination at it's finest. If you are looking for a little erotic hypnotic dominatrix experience then this is a must listen.

If you want to feel total control, being nothing but a toy for her to play with, then this Session is absolutly for you, you surely will not regret it, infact you will want to come back for it over and over and over again ^^

While relatively simple and straight forward, this session is still terrifyingly effective and powerful. Or it might be if i still knew to fear. :P
The pleasure conditioning that Domina Shelle does during this session will have you wanting to return again and again to be toyed with.
Personally I think that is time well spent.

What a great file to listen to. Reminded me a little of Alien Abduction. Domina is just a master at dominating and controlling you. You are but the slave who is in for a treat. I love the way Domina plays with her toys. I want to go back so bad.

I needed this file Thank you my Domina. A reminder of my place. The immense pleasure of being so deep and Domina doing what she wants is like no other. Domina's control is so consuming coupled her dominant presence I don't think anyone can resist.

Never would I have ever expected to fall so deep and give so much as I did for my Domina. Her influence is so sexy and beyond controlling, that I experienced something I've hoped for so long would happen to a lowly slave like me. Truly magical, I never want to leave!

This is one very HOT session, a perfect opening to what Domina has planned for the next few days. Her voice is perhaps even more sensuous if that is possible, Her trance stronger and a side of Her persona that She does not show often comes to the fore. A mixture of the gentle loving control that is my Domina's hallmark, but this is coupled with a more dominant and perhaps even wicked vibe. This is Domina showing who is in charge, who holds the power, where my place in this world is.

There is so much pleasure in this session, a chance to submit to Domina's will, to be used for Her amusement. i live to please Domina and if this is how i get to please Her, i am happy to do my best.
i am waiting to be toy'd with as Domina wishes.
