It's so easy to listen to the surprise version over and over becoming more and more adsorbed by Domina's bubble.

I'm a little ashamed to admit that i chose the release ending. I've just been in chastity listing to Dominas silken voice, that washes over me with waves of sexual bliss. My arousal building more and more every time i listen to Her or look at Her perfect feet and Her beautiful Goddess like body. I couldnt resist. I had to explode listening to Her voice and deep in Her hypnotic control

My mind. The void. The bubble. The mist. It is so difficult to tell the difference towards the end of this session and it's such a great feeling. Honestly, i'd love to say more or be more descriptive, but i can't put into words what this session does. Just buy it and experience it.

This is an extremely sexy and relaxing journey back into Dominas world...  
My mind felt soo light, empty, and PINK... giggles  
I went soo deep the first time it's hard to recall... I know it felt SOO amazing...  
Domina Shelle knows exactly what my submissive and obedient mind craves...

This has been quite a ride to me, a really confusing one, i don't remember to much, just helplessness, absolut lose of control and sooo much pleasure. i kinda feel as if i am still listening this feelings not going away, don't get me wrong i always had this feelings, but it feels so much more real since i listened o this File, like i said i am mostly confused, that's on me though, part of me always trys to understand or figure out what exactly happened and yeah i just can't, i have no clue what exactly she did, all i know is i love it, to keep things short and save you from my mumbling all i can do is recommend this File to anyone, it's an outstanding one ^-^
