your body will be weak, your mind weaker and you will be putty in My sweet little hands.

I feed on your strength, I suck it away.

I feed on your will...I suck it away, leaving you unable to resist.

As a sissy i am sooooo happy that Domina Shelle did the effort to create a special sissy version for this file. Thank You my beloved Domina! As a sissy i did only listen to this version though i asume the male version is similar in the suggestions and the hot hypnotic story Domina Shelle used to take me so deep, arouse me so much and increased my submission to Her. i really cannot wait to listen again and again as i want Her to suck out my mind, my girly sissy self really enjoys the air headed feeling Domina created within me during trance and it is still longing on now. Just like the arousal She did raise inside me, not only inside of my panties, no my whole body was tingling with pleasure for Her. i love You my Domina and i will serve You always and forever. Thank You for all You do!
