my Domina seduces me into mindless obedience, no resistance for me. i can't remember what happend during the session but it felt incredible, i love to be my Dominas hypnotized slave and i will come back again to feel the euphoric bliss, the pleasure my Domina gave me with her voice. Incredible session for all who like to be mindless and let Domina Shelle play with their mind till there is only the pleasure of being hypnotized.

As with so many of Her files, Domina Shelle's approach seems gentle and comforting as She lulls you into sleep, but by the end you find

yourself completely brainwashed by Her and not quite sure how it happened. But, of course, you won't care or mind.

CAREFUL! Cotton ball attack on your mind! Sweet as milk and h – or just like this to feel good. If Princess plays hard or soft – it does not matter: I end up more addicted either way.

Thank you Princess!

Domina Shelle, in her gentle and soft voice, takes complete control of my mind and body. What an incredible experience - though the details are a bit hazy, I know now that my mind needs Shelle's brainwashing more than ever before. It still amazes me the effect that her voice can have.

Hypnotized and Mindless is pleasurable, sensual, and very addictive. Listening to Domina's voice in this file is pure ecstasy. i need more of Her and i can't stop listening to this over and over. Domina Shelle is in control. She warmly takes control of your (Her) mind. i can't really say what She does to my mind in this file.

I wish I would have gotten this one much sooner. Domina Shelle can do amazing things with Her voice, but I don't think anything's ever compared with how much pleasure and bliss this one made me feel. I'm going to get addicted to this one!

Hmmm isn't it fun i am sitting here now since 10 minutes staring at the screen and thinking what to write and well it's not helping at all, as much as i try to remember what exactly happened in trance all i know is this, atleast i think i know...Stars/Sheeps/bliss/Mind explosion after Mind explosion/me smiling all over and a feeling like surfing on waves of nothingness in my mind, honestly i have no idea where i was, but surely not in my room, it somehow was like heaven and i absolutly have no idea how to really describe this at all,it just was wonderful and i can't wait to experience this again

i find it difficult to write reviews sometimes when i wake up from a trance and it is so vague and hazy. That, in and of itself, is a good thing! i love the fact that Domina Shelle can take me so deep that i don't even remember what happened. Then, to wake up and feel so wonderful is just icing on the cake! It feels good to be my Domina's hypnotized slave!

After a hard day, listening to this session rejuvenates you in so many ways. It produces a blissful feeling of euphoria, makes you happy, caresses your mind into a lullaby and then forces you to forget everything about it. You wake up smiling afterwards, without knowing what she did to you. If you love this, then by all means, listen!

Mindless but happy. Beautiful trance that causes feelings of love and happiness and the joy of being Domina Shelle's slave. Makes you enter that sweet subspace.

Come and ask Domina to hypnotize you - She'd be happy to oblige! She took me down very deep in the sound of Her voice. I can barely remember anything She said - but this time Her words felt soft like feathers, caressing my mind and filling it with pleasure. Maybe I'll be able to remember more clearly if I listen again?

This session literally left me delirious with pleasure. When I came to my senses the recording had been over for some time, and yet I was still lying on my bed, wide awake but thoroughly stupefied, mumbling out loud about the pleasure Her voice brings me. Only Domina's voice can make me feel such euphoric joy, nothing else even comes close. And I love Her for it. I really do love Her! I would do anything for Her. I *will* do anything for Her.

It feels good to be my Domina's hypnotised slave. I know that there were words in this trance. Beautiful words, wonderful enslaving words. I don't really remember any of them. I only remember being reduced to sensation and emotion. Upon waking I just feel so fortunate to be my Domina's hypnotised slave.
