Another file where Domina completely dominates us as slaves. The tone of this file was different from Dominas other files. This was firm. Firm and erotic at the same time. Deep trance with an explosive ending. i loved it and you will too.

This is pretty straightforward file. Domina wants to Dominate and there are no tricks, there is only submission as Domina takes you and you become Her slave.

If you like being dominated and taken, Latex Slave is for you. Domina's approach here is different. Less seductive, more commanding. Domina is growing ever more sophisticated in her art. Sometimes when you go back to the earlier selections, it shows. There seems to be a subtle disconnect between Domina today and five years ago. But NOT here. In this file Domina is timelessly... well... DOMINANT! Listen and revel in your submission.

Latex Slave is one of those rare File Sessions where i stayed in a deep conscious Trance. From beginning to end, my mind became Blank but aware as every word from Domina Shelle entered my subconscious. The dept of the Trance was unparalleled. i was frozen in time, being erased and reprogrammed, encased in Latex. By far this is the best File i have listened to in regards to the Mindless drone Fantasy.

Latex was not a fetish of mine prior to listening to this, but Domina Shelle has a way of making everything appealing. i recently purchased a zentai to wear while listening to Her files (which is spandex, not latex, but it does the trick), and this file is undoubtedly to blame. The feeling of becoming an anonymous, brainwashed slave is amplified by being dressed for the part.

Princess Shell has such a way with words making me so weak and so vulnerable to Her as Her latex slave. As a previous review mentioned, wearing latex or anything super tight like spandex makes this file even more powerful. i really hope Princess Shelle makes more files like this, exploiting a powerful fetish. if you don't already have a latex fetish, you absolutely will after listening to this.

This is such a treat to listen to. i love the feeling of being encased in latex, surrendering completely to Domina Shelle. i remember the feelings of helplessness and ecstasy as i watched my body obey her commands.

If you wish to appreciate true power then experience the process of having Domina slowly rewrite your desires and needs. Feel the

power of your Domina as she bends and fines tunes your fetishes to align with her desires.

If you don't already long for latex this file will build such a need. If you already desire latex then enjoy this amazing sexy file which will have you wet, hard and truly enslaved.

Let go and sink into this powerful, erotic experience. Let Domina Shelle take you as you melt into complete submission.

Being encased in latex is not something I knew that I wanted. But to be domina's latex slave is a fantastic submissive experience!

OMG, this file is a dream come true as it is the combination of the powerful control of my beloved Domina and my strongest fetish: latex. It is an indescribable blissful feeling to be reduced to an obedient latex drone that follows and command of its Owner without any thought or question. i followed the suggestion of my Domina to wear latex while i listen which increased this phenomenal sensation even more. Thank You my Domina for creating this wonderful file, i enjoyed every second of it.

Domina Shelle's domination is not a loud, brash thing. She is firm, yet calm, and completely confident in your obedience. At least while there is a you to obey. By the end of this session all that remains will be Her creature, awaiting only Her words to transform into your actions. Latex Slave does indeed use latex as part of its central fetish, but enjoyment of latex is not necessary to enjoy the session. Fans of slave play and submission will love this session just as much. For those of us who enjoy all these things, the session is a masterpiece.
