Domina knows how to nurture Her long distant relationships with her slaves. She does this with assignments like this one that reinforce all of our training and intimate desires when we think of Domina and the powerful control She wields over us. This assignment intensifies the emotions we feel on a regular basis for Domina and reminds us why we so dearly admire and adore what Domina offers us - a chance to freely express our submission to a compassionate and loving Dominant who wants to enslave and perfect us. That sounds like a very good offer to me...

There is nothing like "too much" when it comes to worship assignments: I always feel very close to Domina afterwards. Suitable complementary recordings are for the first part of the assignment: "At Her Feet" but also "Body Obsessed My SEXY FEET" and for the sec. Thank You Domina!
