### Description

#### **Mind Cocoon (52+ minutes):**

Are you ready to fall even deeper under My spell, to be captured in My web of submissive erotic bliss, where I will transform you into a loyal obedient pet, wanting, and willing, to do only My bidding?

W/we both know the answer, My sweet, but I get a thrill seeing My prey react to their inevitable fate, the increased heart rate, the vacant look in their eyes as surrender in that moment, and the unmistakable arousal that only I can trigger with just the sound of My soothing voice. The TRUTH is, My words have real power over you, when I speak you are compelled to listen, to learn and, ultimately, to obey. There is no decision-making here just acceptance that I know what's best for you and where I lead, you will follow.

And in this session I have decided to lead you deep into My web, wrapping your mind so tightly that it is immobilized and primed for some life-changing conditioning. Like the metamorphosis of a caterpillar into a butterfly, I will transform the submissive you into a devoted, obedient slave utterly fixated on pleasing Me, pampering Me, and dedicated to supporting all My future wants and needs. As your Princess, your Mistress, your Domina, and your Owner, you need to be

bound to Me, to be selflessly subservient to the one you Love, Honor, and Obey, always knowing each exquisite moment you submit to Me, and My will, only increases the submissive pleasures you feel.

A **Mind Cocooned** by Me is destined for a life of rapturous bliss, your sacrifice of freedom and independent thought exchanged for the erotic passion I imbue in you when you surrender to My authority. These effects are very real, My pet, and if you decide to take this path it may well be one of the last true decisions you make. After this, you will be MINE, obsessed and addicted with serving Me, listening to My sessions, and being as close to Me as your life permits.

Be warned, My sweet, this session is captivation on a whole new level, mind, body and spirit. I know you are eager and willing to beCUM whatever I want you to be for Me, the lure of being mine and feeling My whispered words sinking ever deeper into your mind are all too irresistible for the submissive you. So, be prepared to fall very deep for Me and don't be surprised if you awake from this session **confused, aroused and begging for more**. I am your addiction and you are going to learn just how true this is... (giggles)

Deep in my mental cocoon my mind became even deeper under Dominas control, Deeper under Her influence, Deeper in love with Her, and deeper in absolute submissive obsession with Her

There is no escape from Domina's relentless and oh so effective brainwashing. My mind was trapped in Domina's cocoon and now only helpless obedience remains.

There are periods when a file or series of sessions are introduced when one is transitioned to another stage of Domina's development of what She intends. This is one those sessions after a series of very powerful sessions that will radically deepen Your dedication to Her. It is indeed a metamorphosis. You will never see Her or your purpose without absolute understanding again. She is in control. my life is in service and submission to Her.

Fuck me, just when i think, i can't go any further into trance, Domina drops a bombshell of a gem like Mind Cocoon. i woke from this deep trance to a puddle running down my leg. It was so erotic, Her words just stroking my mind. She wasted no time in taking my mind from me. Weaving Her silken words all around my mind until my mind was Hers to play with. i was just there obeying everything She told me to do. i loved that. i love how Domina does this. i really can't get enough of Her control over my mind and body. Go buy it, listen and see what you think.

Hello,  
If you are reading this review before purchasing this session, then you should skip this and go get something from Domina's special deals instead. And that's all I have to say about it.

Domina's cocoon is simply a masterpiece. Her control is erotic poetry and harmony at its best. Purchase this now to experience bliss as its best. She has no Dominant equal.
