Description

Mind Secrets (27 minutes):

My baby, the connection between U/us is only growing stronger as you surrender more of yourself to Me. Each time your fall for your Domina, and allow Me to do wicked naughty things with your mind - giggles - you relinquish more of your self-control to Me, every thought subjugated by My will and your throbbing arousal under My dominion.

Ceding control to your devious Domina is sexy - it's HARD to think about anything else when I'm on your mind - but I want to take O/our relationship to a new level, beyond living your fantasies and dreams in My mesmerizing world of seduction and trance. True submission is about your giving Me the power to destroy you with the fervent belief that you TRUST Me never to do so.

That's right, My sweet, the true test of My power over you is being so vulnerable that trusting in Me is stronger than your fears. And there's only one way to demonstrate this level of devotion To Me and that is to confess all your deepest darkest secrets to your adorable Domina, the one you Love, Honor and Obey, always. Confiding in Me will strengthen O/our relationship, creating an unbreakable bond and empowering you to be more selfless and powerless in My presence.

There's no escaping this fate, you are destined to be MINE. Like a powerful TRUTH serum, My voice is going to entice you to reveal all your **Mind Secrets**, and each time you beCUM mindless for Me, your desire to tell all, to unburden yourself of every guilty little secret, will GROW and GROW, cementing your endless hunger to surrender further to My absolute authority.

Hmmmm, I'm going to pull on your heartstrings, f*ck with your mind, and leave you on the ragged EDGE of blissful pleasure as I seductively compel you to SPILL all for your Domina. Confessing never felt so good, My horny pet, and all you have to do is lie back, relax, and stroke to My words as I strip away the last vestiges of your resistance to conceal any secrets from Me.

So erotic to share secrets with Domina! This audio masterpiece took me down deep and utterly suggestible. Buy it now! You won't regret it.

Incredibly sexy and dangerous all at the same time... Confess to your Dark Queen your deepest of secrets.... She will reward You with the release you CRAVE... But She WILL know ALL before before you have the chance to think twice... i easily confessed things that She could use to ruin me and things that i'm positive i will be punished for... But there was NO choice in the matter... No amount of mental gymnastics are good enough to prevent Domina Shelle from finding out what you may have been hiding... I'm both relieved yet terrified... All wrapped in EXTREME arousal! For some who are currently locked up and unable to cum... this may be your ONLY way out! giggles

Damn that was sexy as all hell. Dominas voice was so fucking sexy with all those whispers. How is it that Domina can just talk the whole time and put me into a deep trance. Domina didn't hold anything back with this file. It was pure eroticism and a pure mind fuck. Domina is so good at getting inside my mind and then fucking the crap out of it. i was dripping precum all over when this was done. i really loved it. Buy this file. Let Domina have Her way with you, you will not regret it. ?????

A very sexy session where Domina helps us to unburden our minds. Her voice is definitely like a truth serum and She will draw out any and all secrets. This is a very effective session. And oh so arousing to spill all my hidden secrets to Her.

This is beautiful in that it allows me to confess my sins against my owner... i'm sometimes not a perfect slave and i need correction... i need to open up and let my Owner see my faults and shortcomings and this is exactly what i need

Sessions like these are some of Domina's best work. A reminder of just how much power she has over me and how much I am completely unable to disobey her tiniest whim. This file is dangerous, or at least it is if you aren't yet 100% devoted to our Domina, but that's what we all want to be anyways right?

This is Domina at Her Sexiest, Her voice is like Sex, the heavenly places She takes her victim are almost too much to bear. Domina is the best at what She does, Her hypnosis is so casual and effortless, just a conversation at first then you are Her puppet, pulled by Her Sweet Sexy Southern Voice, helpless before Her.

This session is hot, steamy, sexy, and very very effective.

If you are in LocTober this may break you, if you are in Domina's chastity control this session is very very dangerous, it is also irresistibly, insanely hot, and sexy, just like the Divine Goddess who created it. A must-have session.
