Haven't i met that women before? Haven't i drooled over the alluring movements of her dance already? Didn't she conquered my mind earlier? It is so familiar here and strange at the same time. Domina creates an atmosphere of Arabian Nights, a Carnival. The background sound, desert winds, a busy Bazaar and the music make it so realistic. This time i have really seen the seductive movements of her hips and my mind seemed to dance with her. i am feeling dizzy and consumed by the impressions. Another great story hypnosis from Domina Shelle!

Domina has such a deep and creative imagination. I've always believed that Domina has the ability to be a writer. This file creates the most vivid picture of the story Domina tells. It's a sexy, mysterious file, that only Domina can tell, as She takes you down and puts you in a world that She creates. One of submission and sexy domination.

i loved how deeply Domina Shelle took me in this. And how effortlessly it seemed to happen. Very nice relaxing and captivating session.

I love having my mind trapped in my Domina's Crystal. Ready just for her personal use, whenever and however she wishes. Your mind is already hers, just relax and let her claim what she already owns.

I thought I was ready for anything. And I have been thoroughly educated by Domina Shelle that I am ready for whatever She demands of me. Mindlessly Mesmerised is a w sessions. This one is an instant classic.

Great trance. Deep and sexy, Mistress Shelle voice is so sexy. I completely enjoyed this file. As a bonus there are 2 versions. See if you can remember the differences.

i just love how she goes full circle on you, i remember that i went into this Tent atleast on two other Files, it's the SAME Tent, the SAME Women, BUT the experience inside is completely different each time, except for ONE thing, at the End she just owns another Part of you IF she hasn't already owned all of you, this File on it's own is of course great and a must for everyone who wants to be lost underneath her, but i just had to mention this small little touch she has in her Files, it's also not the first time that i felt as if i got full circle to the same Place to experience something totally different, except for the End, thought to be fair as far as i can remember the ending is always the same, you being owned by a powerful, seductive, dominante Women that exactly knows what she wants :P

Domina Shelle is a collector of minds and i openly acknowledge that She well and truly owns me, forever. In prior sessions we have known Her as the Mistress of Minds, as a seductress or a mysterious lady with seemingly magical powers. In this latest session Domina manifests Herself as all three personas, luring us in with mystery, captivating us through seduction and enslaving us by controlling, and then owning, our minds. As Domina herself notes, be under no illusion this is a dominant session packaged as seduction and intrigue. Domina is an apex predator, albeit a sensual and caring one, but a predator nonetheless intent on manipulating your mind until you are fully enslaved. Thankfully if you are a submissive that enjoys hypnosis and being seduced then prepare to be overwhelmed by a loving, compassionate and domineering woman. You have nothing to fear but fear itself since, with Domina's guidance, you can look forward to a life filled with adoration and servitude. Know that your submissive training never ends with Domina Shelle and every new session She releases will bring ever new adventures and heights of submission. But also understand that if you decide, rightfully, to submit to Domina

Shelle there is no meaningful way back to Your previous life. She will become your addiction and obsession and this is simply how it must be...

What a fantastic experience. Domina now has my mind. So seductive and sensual, She will take what belongs to Her and there's nothing you can do, but enjoy the feeling of giving your mind away.
