Description

My Captive Sissy (35 minutes):

My gurl, you will be subjected to My special treatment in this session, handcuffed, hooded, and even sedated for a period, as I have My wicked way with you, an opportunity for Me to play with My prize and learn the true limits of your endurance, as you lust for Me. (giggles)

Don't fret, My sweet, W/we are going to have a lot of fun together. With you bound and begging for just the slightest caress from your deviant Domina, I'm going to tease and tantalize you with an assortment of provocative toys, playfully breaking you down as I imbue you with renewed passion and purpose to be forever MINE.

Being **My Captive Sissy** is a fantasy I know you've often dreamt about, powerless and naked in My presence, you are complicit in your own subjugation as you willingly surrender to My overwhelming power and authority. Intoxicated by My presence you are driven by NEED and LUST. Maybe I'll play in your panties...

This is real conditioning, My pet, the systematic and intentional use of emotional and sexual attraction to coerce the submissive within, submit to My will, compulsively seeking My attention

with an ever irrevocable desire to please Me and make Me happy.

Truth be told you are utterly addicted to My "sweet and spicy" style of domination, loving the feeling of My ownership, accepting that session by session you are willing to forsake your freedom to Me just to hear My voice and float away with My words. So, prepare to be chemically coaxed into a deeper state of submission as I captivate your mind, and your senses, leaving you desperate for more...

And THANK YOU SO much Domina Shelle for making this sissy version! My immersion into the story was SO good that it felt real at the time! This file is a delicious fantasy where first you give up control and then control is forcibly taken from you. Not to worry, though. Domina Shelle is in charge and will guide you to new levels of submissive decadence that will leave you wanting to return to Her powerful control again and again and again. i really appreciate that Domina made this sissy version of this file!
