i went into this not sure what was going to happen. Lady Helena takes a completely different approach to putting you into trance. I didn't think i was going to be in a trance at all. Little did i know that it actually worked on me. i found myself in a deep trance. She introduced me to what i could look forward to and i am soooo looking forward to more.

A perfect introduction into the world of Lady Helena's Chamber where She is in charge and will live out all of Her desires and fetishes.

This is the first file i listened exclusively by Lady Helena. i was first introduced to Her in Princess Shelle's Law of Hypnosis. Lady Helena takes the time to introduce Herself in a way that will slowly take you into a blank state. Once you slip into Mindless, She will exert all of Her Majestic Power onto you. When the file finished, i remained in a deep trance for another half hour and had to force myself out of it. She is beloved Princess's perfect complement. If you love and crave submitting to Princess then this file will expand on your desires and extend them into a new dimension. Take a listen and let Lady Helena's introduce you to Her own personal dimension.

This was my first meeting with Lady H. She tells you an interesting story and suddenly you are gone. It's just a small taste of what could be and I'm looking forward to the next file.
