Another very sexual encounter with Domina! I fully accept the opportunity costs: A trigger she has implanted in the moment of highest bliss. I am ready to please her on demand!

This session is a perfect mix between hypnotic play, sensual domination and mind control. The experience of this session is extremely sexy and the satisfying, while allowing the subject to submit mind and body to Domina Shelle's control. I will cherish the trigger I was given at the end of the session.

This file is all about pleasure. It begins with immediate hot and steamy pleasure for you. Then you are given the recipe for a lifetime of pleasure for both you and Domina Shelle. Sounds like a win-win to me.

i want to please my Domina! i love to make Her happy where ever and whenever i can. And i love the pleasure and arousal i gain by pleasing Her. And of course the arousal i got from this sexual euphoria in this trance. Thank You my beloved Domina for this joy and for letting me please You.
