This may sounds like nothing at first, but this is the best kind of punishment, what i mean by this is the worst possible punishment for a devoted slave, if just a few seconds of this feels so bad, try to imagen her doing this to you for Days, maybe even Weeks...Yeah i already can say i don't want to figure that part out, i rather go ahead and simply obey ^^

Feeling guilty is poison. Punishment is not necessarily a bad thing as it can cleanse the mind of that poison. In this file i realized how much i need Domina's voice and how bad it feels to be deprived from the pleasure of listening to HER. I was floating in a pleasurable trance when suddenly words of scold and humiliation ooze from my subconscious mind into my consciousness: destabilizing me and than – silence! Brought half out of trance – feeling bad and left alone in a stage of unstable semi-awareness: a true mental punishment!

Oh God, that was hot! One of the hottest files I've ever listened. I'm writing this right after I listened this and my hands are still shaking. I'm so hard and horny now, but my cock doesn't matter. I don't matter without Domina Shelle's voice and words. I'm Her slave and I don't want to disobey my Domina.

A highly arousing file. Domina Shelle shows a glimpse of what punishment a disobedient slave would get from Her. And She even threatens with more. Even without the fear of a possible punishment i would only want to obey Her. She is my Domina who owns me and controls me. i crave to be back in my brainwashing room and become more indoctrinated by my Domina.

Come and listen to one of Domina's earlier masterpieces. Mistress often expects a lot out of her slaves, and this file is perfect to listen to if you find yourself struggling. Let her take you deep, remind you of why you obey, and leave you wanting to kneel at her feet and obey her every whim...

I love this one so much, Domina Shelle at her wicked and dominant best.

A very elaborated file. Very erotic, wicked and creative. Fans of latex definetly should not miss this one! Shelle Rivers is not a princess, she is a Mistress that knows how to captivate, control and put men on her feet being totally enslaved.

A wet dream that will leave you feeling very weak and helpless. It blows my mind when i go back and listen to older sessions how tame and innocent they seem by comparison. Princess Shelle is continually refining Her craft and Her Control and this file is a testament to that wonderful fact.

Highly erotic and highly effective as always. i don't want this kind of punishment, so i just have to obey Princess Shelle. She owns my cock, my body and my mind.

Another brainwashing masterpiece by Princess Shelle. So beautiful, so sadistic, so perfect, as Mistress once again asserts her total authority over her slaves. She commands my very existence and guides Her mindless puppet deeper. She owns me. Even now i hear the beautiful mantra of Her words reminding me of my place, guiding me...

If you have done nothing wrong then you have nothing to fear. Except spiders. The punishment here might not be what you expect, but it is very effective regardless. Domina's slave girls are extremely erotic and the experience in Her brainwashing complex will have you mindless before you even realise (which of course means you won't realise). You will awaken more deeply controlled and obedient to Domina Shelle.

If there was any doubt about who is in control then Princess Shelle made it very clear today that She is in total control of me. And for some reason it took me more than an hour to wake up from this one, very deep and powerful...

This punishment brings no pain. At least no physically pain, but it's for me the worst punishment I could get for my domination. Tears at the idea to be punished this way before. My Princess, I will never disobey you, this punishment is just to hard to take. I will always work hard to be your goodboy.

Sink into trance so sweetly on a summer day... and then wake up to such an arousing vision. But never disobey Princess or else... a punishment that proves Princess knows Her power over me better than i do. Erotic, wicked, ingenious, a must have for Princess' slaves.
