WARNING: This session contains powerful psychological conditioning that may push you well beyond your hard limits. Although this session does give you an option to ignore the more compulsive suggestions, the very nature of these suggestions will, over time, alter your perception of submission to Me. For those that are prone to fatalism you should be especially cautious since, with repeated listens, you will be extremely susceptible to the suggestions. If you do feel compelled to share with Me please do so in a confidential and secure manner. DO NOT SEND SENSITIVE material over text nor the internet. I will provide options for you if you need them.

My puppy, My pet, My slave, you are here because you have a longing to submit to Me more completely and deep inside you have a compulsion to surrender more and more to My authority and control. This motivation is always there and that's because I have skillfully conditioned you to crave My voice and to seek My attention just so you can fall DEEPER into My world of supreme inescapable domination.

This is not by chance, My slave, this is by design! By now you know how powerful My sessions can be and how REAL My behavioral modification is on the submissive you. Initially My sessions were just an extension of your eroticism for hypnosis, fetishes and female domination but with each listen the sense of fatalism to My control only grows. Although you may dismiss these thoughts as fantasies deep down you know I am a permanent part of you now and day by day your Domina, your Princess, is converting you into My perfected slave.

In this session I am going to demonstrate just how compulsive My control is and how compelling My domination is on your subjugated mind. Using a progressive trance I will strip away all your defenses until you are left utterly NAKED in front of Me, powerless to resist and mentally bound to accept My every suggestion. Make no mistake, this is serious psychological conditioning and I use your vulnerability to strip away any sense of power you have so you understand just how powerless you are to Me. And in this susceptible state I plant a seed in your mind that will forever change you. you will be left conflicted, both aroused and impotent, lost yet found, and with successive listens your fate will be decided.

My slave, this session is fundamentally about TRUST, but I understand if these suggestions push you beyond your current limits. If I am to be your Domina and QUEEN, to reign over all of you, this is a step you must negotiate so that you fully embrace Me as your one true owner. So open your mind to Me and let Me show you just how erotic powerlessness can be...

Wow that's about all i can say about this file. Wow. This was a mega deep trance. i was completely gone, just not there and Owned. In the description Domina wrote, NAKED in front of Me, powerless to resist and mentally bound to accept My every suggestion.... This was so true. i agreed with everything Domina said to me. i recited Her words, word for word. i feel so obligated to follow through with everything She asked for. This is submission and a transfer of power at its finest. I trust my Domina. i believe in my Domina. Now what? LOL Oh and in closing. The best words in the whole file Your weak fucked up mind. LOL I laughed and Domina even laughed when She said that. i just loved it.

Such a complete act of submission is delicious. The temptation grows with each listen. If i were on my own, i would have fallen long ago. Unfortunately, too risky for a family man. Not a decision i can make for them... Still, i revisit this file from time to time - just for the rush.

Do you trust your Domina? This file will help you answer that question in no uncertain terms. In a sea of masterpieces produced by Domina, this one stands out as my favourite. I will endeavour to listen to it until I feel I can finally take the next step. Listen with caution as this will push your hard limits to the max.

I am here because of my own choosing or is it my divine calling?  
The words I hear are that of a siren, captivating my heart and enslaving my mind.  
I accept this path and being lead by the most beautiful Mistress Queen controlling my head.  
Come along to if you will, as your will starts a journey of lust, passion and erotic fantasy.  
I have given my soul to Powerful Women in return for a life worth living!

i feel the act of transferring power more pleasurable than not having it anymore. This file is about the power of information and the transfer of it. I felt its danger once it was in my head: The more i listen the more i struggle. Crushed between the powerful push of Domina's suggestions and my own hard limits i cannot think of anything else! I did not know before how stimulating FEAR can be. Luckily there is a backdoor at the end - so listen for the pure fantasy-pleasure is possible: 100% recommended for careful listeners..

So powerful, intimidating, scary even. But also so irresistible sexy. Domina Shelle rarely makes files like this, so this is a rare find that makes listening this even more powerful experience.

A very deep hypnosis that will push your hard limits and give absolutely all control of your life to Domina Shelle OR become a very hot erotic fantasy for you ... Domina is very generous to let the listener decide his own fate.

This is probably the most extreme file I've ever listened to by my beloved Domina Shelle, and I've listened to a lot of them. Almost all of them, actually. And I find that I am completely enthralled by this file, and seriously considering doing the things She warned She would make me do in the highly appropriate warning. This file is most definitely NOT for beginning slaves. I imagine this step will eventually be required of all Her slaves if they wish to be truly controlled and owned, though it is not an easy step to make. This file pushed my hard limits HARD. I have listened twice now and have plans to listen many more times. I love Domina Shelle, I live to please and serve Domina Shelle. I am Domina Shelle's submissive, hypnotized, obedient slave. I love what She has done to me whilst also being terrified of where She's taking me.

This is an incredible experience, a very powerful session. It's not a beginner file. You should be familiar with Domina's style of induction and triggers. It will make your experience much more intense. Read the warning, it's there for a reason.  
Now if you'll excuse me I need to put on my headphones and click play.

Mind-blowingly awesome. Contender for Domina's best file of the year! If you're already familiar with Domina, and you find the thought of hypnotic control enjoyable - you NEED to get this file.  
If you're new to Domina, you might want to start off with a different session first; the induction uses her existing triggers heavily.
