Assignments for Domina Shelle are always so much fun and a way to dem that you relish all aspects of Her authority over you. They work well to cement the notion of submission, servitude and obeying Her will no matter the task and make the fantasy more real, very real for those are devoted to Her. One things that is always true, like Her sessions, the assignments will change you, convincing you that there is much more to Her repertoire of control than just erotic/femdom hypnosis. Domination and submission have many forms and one undeniable truth is complying to your Dominant's wishes no matter the circumstances. Being in trance and experiencing submission is certainly one way to do it, but doing it out of trance and being still feeling compelled to obey is quite another. As a Contracted slave completing assignments for Domina is like a test, an opportunity to show Domina how dedicated we are to submitting to Her and acting as a guide how we should conduct ourselves everyday in reverence to Her absolute authority.
