Having always had a thing for beautiful legs adorned in pantyhose, this session was a dream come true. That's right, I said pantyhose: while the lovely photos that come with the session feature Domina in a pair of sexy stockings, this session focuses on sheer pantyhose! A must-have for any leg man, to be sure, and if pantyhose also happens to be your thing, Domina Shelle's irresistible voice will have you in Nylon Nirvana.

i have a leg fetish and this file used that to take total control. It used my fetish against me to take me down. Then control me to a wonderful and exciting conclusion. i would highly recommend this file to anyone who loves looking at a beautiful woman in a short shirt with long shapely nylon wrapped legs. 5 stars

If you didn't have a hosiery fetish, you're about to. Princess Shelle commands your attention and servitude in one of the sexiest ways possible here. Bound and helpless for her in addition to being hypnotically subdued. Perfect Shelle.

I never thought that a predicament bondage experience under hypnosis would be possible! Domina Shelle takes her time to develop the trance and the imagination and while i follow Her it gets all realistic - the dark alley - her presence - her silk and nylon covered skin! And i find myself bound and restraint - reduced to a bundle of pleasure at Her mercy.

The amount of control and power Domina has and wields in this session left me drained and breathless... *heart* That distinct sound of her walking towards me is forever burned into my mind... Dangerously arousing... There's no escape...

First-- those pictures are so deliciously sexy. I love Domina's legs in those nylons. I can't say enough that she is the most attractive and most beautiful woman of all and I honestly couldn't be more in love with anybody else. Then-- I really love the relaxing background music Domina chooses for her Sessions. But with these two versions I enjoy the one with all the swooshes and clicking of her shoes so much more. It feels as if she was right there with me. She seems to know all those fantasies

in my perfectly conditioned brain. Maybe because she put them there-- maybe because she's just so perfect and passionate at what she does. She can make me fall into trance for her so easily and whenever she wants-- and she sends me deeper and deeper in the same effortless way, with only a few words. I love to follow her voice as she is taking me into this helplessly blank state in the most blissful and capturing way.

Sometimes her traps are so obvious but-- yet I still can't help but to walk right into them.

Sometimes I have no idea what's about to happen-- but I trust her and when she finally reveals her plan it's already too late and all I can do is follow her further into my wildest dreams. Thank You Domina.

First of all, that picture is sizzling hot! Damn! This file might have given me a nylon fetish or maybe I already had one and this just made it surface. This isn't like most of Domina's files. The danger part was something new and it surprised me, it made listening to this file a little different experience. That danger added fear in the mix and that added adrenaline and excitement. I was so deep into this fantasy. Just shows that My Domina is very good at playing in my mind.

Ok I give up now, I have listened several times and still I just can't figure out the right words to describe this experience, partially I am not even sure what happened, all I can say is I love this File, the feeling of submission, bliss and purely being controlled and seduced into what she wants, doesn't matter what I want, heck I couldn't even tell what I want if I would be allowed to, I just want to fall deeper and fully under her control and obey her every command and wish, really all that matters is Princess and Princess alone ^^

I've always had this fetish, but my Sweet Domina, with Her soft, heavenly voice and the thought of Her being the focus of this makes me so aroused. All it takes is Domina to say things to me and it happens. I don't want to say too much or else I'll give it away. But believe me, if you're even slightly brainwashed and or in love with Domina, this will blow your mind, along with other things

Absolutely incredible! The Power of this Woman is immense. Such an erotic and seductive and sensual piece of artwork. She wraps stocking around your mind and ties your brain up with them, there is no escape and you don't want to.....
Oh my Mistress Domina, Please I give myself to You, I can no longer resist Your skillful hypnosis.
You are unbelievably the best!

So many hypnotic traps in a single session. From the absolutely perfect use of ambient sound effects to Domina Shelle's binding and inescapable fantasy, this session is absolutely killer from beginning to ending. While the session isn't necessarily aiming to trigger an ASMR, the sound design of some parts of the session are reminiscent of that style of audio. Although Domina Shelle's Voice always triggers a response deeper than any silly youtube video.
