I thought with the intensity of all the new files Domina releases that nothing could overwhelmingly increase the desire for and the pleasure I get serving Domina. Leaving me so on edge and aching more. I WAS SO WRONG. This is the perfect file for all you want Domina in their life and just for all men to learn about the truths of the world.

This is a huge amount of material for a wonderful price, and the only downside is the sheer amount of seductive teaching to be absorbed. Professor Shelle wants us to understand our place in the world, and what our aspirations should be. She intends to educate our psyches and be a change agent in our lives. With her impeccable logic and her gentle but implacable persuasiveness, she shows us how we can serve, and why we would want to. I am still working with these files, and absorbing all that they have to teach me, but they have already given me far than I expected.

Maybe it is the fact that i listened the most to these files, but i guess the induction in the classroom files is one of the best. i prefer to be distracted by more than one voice. And these files use this. The speed of this induction is perfect. Princess talks about your eyes, which is great because it is a visible indicator that SHE really puts someone under. In this file SHE takes HER time with it. Even if i try to stay awake, it is impossible to resist this induction right the moment SHE say it. The only thing in these files which brings me a little out of trance is the school bell. The moment the school bell rings it is so quiet and peaceful, and the bell cuts through this silence. The transition from induction to real lesson could be a little softer. The lessons themselves are fantastic. I like it if i have to repeat things.

Princess Shelle is amazing. With her smooth and seductive voice, and her incredible knowledge of hypnosis, femdom and control, not to mention her amazing physical beauty, she was able to easily lead me down the path of extreme horniness and addiction. After listening to just a few mp3s, I am already hooked. It just makes me feel so amazing inside when I hear her voice, and I start immediately to get aroused. I also trust her as I know she is very wise, and also a good person. I think her school for men is an excellent course, as each lesson builds on the previous one, and it took me very deep into the ecstasy of submission.
