Description

Session: 36 minutes

Level: Hard

Category: Enslavement-Mind Control-Erotic

How can such a sweet and sexy Domina be so Dangerous? How could you fall into such a wickedcontrol trap again? She takes you under Her power, seduces you and just when you think this is a perfect gift you soon realize the agony of complete defeat. Be careful because Her voice will take you and break down your walls...as She wickedly laughs at your "sweet pleasure"...The walls of Her prison become stronger...as your will is drained empty.

A perfect TRANCE. Powerful Binaurals for deeper effects. Get cozy, turn the lights down low and prepare to lose yourself to ME!

What an amazing file. i loved how the file started off, telling us to get naked. i love being naked and vulnerable for my Domina. I really

don't remember how Domina took me into trance. It seems Domina was just talking away. Before i knew what happened, i was in a deep hypnotized sleep. The file is very erotic in nature. you feel compelled to obey everything Domina tells you to do. Oh and you will want to do it.

i never realized just how badly i LOVE and needed this sweet and ag helpless slave body and mind just goes blank and does what it is told... my heart was racing when i realized what Domina did to me, but by than, it was TOO late! The masochist in me wants me to beg her to make me listen to this one over and over again... mmmm...

This file is a fantasy come true! Domina Shelle is so kind and compassionate - she always rewards her obedient slaves, sometimes even with exactly what they've been begging for! Listen and she takes you deep, empties your mind, and leaves you with an incredibly strong post-hypnotic suggestion that will keep you ensure you fall deeply into trance over and over again.

That file is so sweet, but after the file you will be so tired and dry, lol

This file kind of has it all; an enslaving and deep trance, lots and lots of pleasure (warning, lots and lots), and encouraging commands to obediently follow. The one special sexy method that Domina used to make me fall into mindlessness was very effective I felt, and the file definitely doesn't let up from there in how hot, controlling, or, as you can guess, a little torturous it becomes

Deeper and deeper i go under HER power. Pleasure and pain mixed together in an irresistible formula, i must obey.

How much pleasure is too much? This is definety a hot file and first it feels like winning in a lottery, but then it start to feel too much. Side effect of this was that I spent much of my weekend sleeping.

This file is highly dangerous, because it is impossible to resist and it bring to a very long and dangerous torture. Our Domina uses her skill to make sound sweet and pleasurable something that become an horrible torture. But the moment you are aware of the torture, it is already too late.

A great file that makes it's intent clear early on. Domina Shelle pulls no punches in this file, and remains in full control over Her slave from the first syllable to beyond the recording's ending. While intent and control are evident early on, the power of the session build upon itself as the suggestions are obeyed, to the point that soon the subject remains mindless and suggestible.

As always the sweet voice of Domina Shelle combined with powerful binaural effects took me deep into trance. In my most suggestible state She created a urge in me that sounds really like pleasure for the first but now as it's the second day the need to obey becomes more painful. On the third day i am sure it'll be pure torture for me. Though i will obey still, that i know without any doubt as obedience to Domina is pleasure and will let me endure any pain. The goal She probably wants to achieve is that when i am totally drained and exhausted, i will beg for chastity. Nevertheless like Domina told me i will take full advantage of this file and the commands She gave me through it. So i am trapped between pleasure and pain, truly a sweet torture.
