Domina provides such a sweet and beautiful narrative to this amazing calm set of files. To spoil would be make Her displeased and no loyal slave would do such a thing. I will only follow Her guidance and tell you to experience this thrilling journey yourself. It's nothing that you can expect.

If you can devote the time this series is a journey. An unexpected journey much like The Hobbit. Princess Shelle is a masterful story teller as she takes you deep into her world. Before you know you are emmersed and under her control. It is vivid and breath taking, each and every session. As you feel yourself giving up to her will you realize this is where you should be. Now if you will excuse me I need to put my headphones on and push play...

I bought this series after enjoying the first chapter for free on YouTube. The c and I found for a good many months that I would always turn to other files whenever I had time to trance, seeking the relentless and intense brainwashing in which Princess Shelle so obviously excels. But more recently I remembered that The Sleeping Forest is Her personal favorite so I decided to give it another try and I'm delighted I did. It reminds me why I was drawn to Shelle in the first place. It is so gentle, and seductive, subtly dangerous but oh so pleasurable just listening to the sound of Her voice that it all just slips under your radar.

The power of narrative is well known to advertisers and propagandists. The Sleeping Forest makes use of this, coaxing your skeptical mind to stay silent allowing you to dream all of its symbols and metaphors, with their hidden meanings gradually revealing themselves as a wonderful part of your new identity.

There are files that are foremost intense.
There are files that are foremost relaxing.
There are files that are foremost entertaining.
There are files that are foremost educational.

The Sleeping Forest Series contains all these elements. It plays with them, it combines them. And yet the most important element of this wonderfull work of art is undeniably strong feeling of intimacy. I've listened to many Domina's sessions, but none of them was able to make me feel so close to my Mistress.

If you're willing to know Mistress better, if you're ready to go on an amazing, long adventure with Her - this series is simply a MUST HAVE!

i just spent the last 2 days listening to the first 6 parts of the Sleeping Forest and all i can say is WOW! Deeper and deeper with each installment. Doing these pretty much straight in a row, i love how this was like one looooooong trance. Looking forward to the final step and giving myself completely to Domina Shelle!

This series is definitely Domina's masterpiece - and BY FAR one of my favorites ever! The beginning feels mysterious, intriguing and confusing - an increasingly sensual fairy tale meandering between experiences, as you fall deeper and deeper (into trance? in love?) with the Lady in Red. These files have a tendency to put me so incredibly deep into trance that the next thing i know i'm being counted back awake with literally no idea what happened, fragments surfacing later in fragments and dream. Great for beginners and

experienced subjects alike - this is a wonderful introduction to Domina Shelle's amazing hypnotic style, and it's also an incredibly sensual and intriguing experience for more advanced subjects. There's absolutely no coercion here - but it WILL leave you changed.

A truly electric experience. Every episode drawing me deeper into Domina's fantasy and taking me over. Can't wait for the final instalment

After spending some time inside the Forest and getting familiar with how unique and wonderful everything about it feels it soon becomes impossible to not want to return. Looking back this is easily the most memorable set of files She's created and I'm looking forward to continuing the story to its inevitably explosive and exciting end. The Forest is all about the desire and deep-seated need for the mysterious and powerful Mistress within. Sink for Her passion.

This story will leave you so aroused and so aching for Our Domina. All we have to do is sinking into Her passion and let Her guide us to our Final Destination. A wonderful Place where Our Domina will protect us and where we'll absorb Her thoughts, until our minds will be permanently brainwashed and ready to follow Her every command. If someone is reading this, i just wanna tell him: JUST GIVE IN! Don't be afraid; you know, inside your mind, that you need to be dominated, you need a powerful woman who knows how to control your mind and make it better. So give in, She will enslave you with Her sweet voice and you'll not regret it, She will not hurt you, She will just take on surface your most secret desires and make them real. She will be your Domina, but she will take care of you, just like a sweet but strict mother with her baby. She will re-educate your brain and you'll become a better person and a perfect slave for your Domina. Sink into her Passion.

i love how the story progresses. i could almost feel myself growing weaker and giving up more and more as the stories progressed. By the 3rd one i am sure i belonged to the Lady in red. i have also listened to the 5th story and can't wait for the 6th and 7th. i know that will be an epic explosion resulting in me finding myself on my knees at my Mistress's door.
