Description

Thought Eradication (34 minutes):

I know that you love to drift in a blissful state of trance, feeling blank and mindless, effortlessly floating away listening to My words. Would you willingly embrace this feeling all of the time, to go through life without a thought of your own, a docile, receptive, malleable mind totally fixated on pleasing your Domina, My thoughts and words dominating every facet of your existence?

Well, My pet, I'm going to take away your ability to think and, no, you will not be transformed into some type of ZOMBIE, well, not in the traditional sense!! (giggles) I'm a Domina with a plan and I have been steadily seeding your mind for some time now with a craving for **complete thought eradication**. Now, don't be alarmed, this has a very focused application and you will still be able to function normally during your day to day life. However, whenever you are at home, or at any other time are alone, with no important tasks to perform - you know, during your "private" time - the only thing you will have on your mind is ME!

Doesn't that sound truly blissful, My sweet, taking slave's submission to Me to a whole new level, loving those **intense feelings of surrender** and obedience everyday as you serve Me? I can see by the way you are smiling, right now, that you would relish such an opportunity, so let

U/us proceed - click NOW and DOWNLOAD - and embrace your desperate curiosity to learn how I am going to **fuck with your mind** this time, acknowledging that the swelling between your legs is tacit consent for you to venture into the unknown...

And, as a willing subject, it will be a simple process to subjugate your will. By wrapping you in a very special bubble, every thought you have will be trapped and carried away, leaving an empty space, a void, for Me to fill with My thoughts and My desires. If you want to learn more, you know what you need to do, because, the more I withhold, the more you'll covet what your mysterious Domina, your Mistress Owner, has planned for you! After all, do you really believe you have a choice? ~~Kisses~~

CAUTION: This session contains powerful POST HYPNOTIC effects and, with each listen, you will be triggered to beCUM hornier and hornier, inducing a compulsion to listen repeatedly as I reinforce the pleasure of mindlessness within you. Consider this a warning.

There was little memory of the first listen, but it took an hour or so before i was aware of being awake. Simply nothing crossed my mind for quite awhile. The second listen left a wonderful and prolonged thoughtless bliss. This session is a great prelude to any other session that you might want to experience more fully. It will leave you so open to Domina's words.

i loved this session and simply loved Dominas use of the bubbles to take me deeper and deeper into trance. Reminded a lot of The Eraser. One of my favorite files. But in this file, i am not sure i have ever been that mindless and blank. i just loved that feeling of letting go to Domina and having Her use Her sexy, seductive, sticky words to seduce and manipulate my mind. After the file was over i couldn't really think. my mind was so empty of thought. It was weird. But in a good way. i love being mindless for my Domina. i just have to hear Her words more and more. Her voice is everything to me. id loved to just have the time to listen to this file over and over again.

There were a lot of bubbles and popping sound. Someting else too, but can't remember. There is like this big emptiness when i try to think of this session.

I think that i spend more time staring into space after listening to this one. I'm not sure, but i think Domina Shelle will know. I know that i remember this session, right up until the point where i try to remember it. I know what it's about and i think i know what it does, but the important thing is that i am becoming a better slave for Domina Shelle. That makes Her happy which makes me happy.
