Description

### Thought Puppet (40 minutes):

Have you ever wondered why your primal nature is so utterly fixated on Me, a compulsive weakness to devote yourself to the erotic pleasures that only I can stimulate in your mind, and in your sex?

The answer to this seemingly innocuous question is more consequential, and thought provoking than you may think. My baby, by choosing to reveal the TRUTH of your weakness for Me I will be eroding the very foundation of who and what you are, your perception of self, and - quite possibly - the very nature of reality itself from your point of view!

Make no mistake, My pet, the secret of why I have so much power over you is both profound and transformative, dispelling the premise, and delusion, that your self-perception is in any way determined by your own state of mind. The extent of My power and authority over you is more substantive and fundamental than you could ever conceive and, by exposing this facade, I will reinforce the (now) indisputable TRUTH that you exist solely to serve Me, a life of fulfilment dedicated to My long-term happiness and prosperity. (giggles)

I fear the true enormity of what I'm going to do to you will be too much for your open susceptible mind to fully comprehend, and your subconscious mind will, very likely, try to shield your conscious self from this TRUTH, choosing instead to suppress it and increasingly focus your thoughts on being ever more devoted and dedicated to Me. Either way, it is a win win for your beloved Domina (smile) and I look forward to mind fucking you in new interesting ways, slowly molding and reshaping your thoughts on your journey to being My perfected slave.

**WARNING:** "Thought Puppet" is a mind warping masterpiece of seduction, subjugation, disassociation, and the deconstruction of your submissive self. By listening to this session you are accepting that I WILL be exposing you to a new reality and an altered perception of yourself. After this session you may outwardly look and feel the same but inwardly you'll be forever changed. Do not be surprised if you cannot recall the details of the session but feel a heightened compulsion to be more dedicated and devoted to Me. This is REAL domination and control, My sweet, and if you listen repeatedly you will be MINE!

This session is incredible. I went very deep and i have very little recollection of the session itself. It almost feels like there has been a fundamental shift in understanding, but i have not yet been able to fully process it yet. This is not a session for newcomers. Wow...

Domina's voice was so incredibly sexy in this session. Just hypnotic. She just amazes me at how She can take me under in so little time. In this session, She's just explaining how things are and soon i find myself totally gone. Under a very deep trance. After being completely taken, Domina proceeds to mind fuck the crap out of me. Making this an extremely erotic session. All i can say, is i am completely and utterly devoted to my Domina. ?????

i am Domina's thoughtless, mindless puppet. i have no mind. Her mind is my mind and the source of all my thoughts that come into my blank and empty head. Please Domina please continue to erase my mind, so that You are all that is in my mind.

Deep trance and i don't remember much of this. Just that i liked it very much and woke up all horny and need to please my Domina.

Domina takes swift control with Her confusion technique. It is irresistible. It is powerful. It left me helpless, completely in Her control. my mind was... Her mind. i was nothing but Her oh-so-willing plaything. And in the end? She took my memories. But i can say this without doubt. i was Hers, and will be forever more.

Domina Shelle is incredible. Her intentions are unstoppable. I am an open programmable mind and this new session is highly influential and transformative. Clearly, the permanent and everlasting effects of her years of training have left me wandering who's mind is in my head. Most of her sessions have an instant effect on my thinking and actions, but now she has me questioning where my thinking and feeling is gravitated from. Domina is so powerful. So absolutely powerful. This session has left me curled up in submission and continually looking at her words and images. Everything is being eliminated outside my focus and dedication to her. And it has and IS being eliminated. I don't choose any more. I just respond to her voice.

Wow! i didn't know what to expect of this session, but slave has been thrown for loop. Let me set the stage for this explanation... That person is - i was... am... i know an engineer, a creative, very hands on, person with a wide variety of skills. his shop occupies much of the basement, but with some recreational area (pool table, etc) and a quiet, cool couch where he frequently relaxes to Domina's voice. Awakening from this session, Thought Puppet, and moving around that shop, i found myself wondering where i was and what was all of this stuff around me. i think he was me - or i was him. Not sure. Still figuring it all out. Writing this review because it is what Domina wishes. And beginning to think there must be some way to turn all that surrounds me to Domina's service. Or maybe Domina is thinking of how she could use... what She sees about Her. That person was, i believe already pursuing a project for Domina, along those lines. But perhaps with insufficient devotion. i must get it moving again. he will listen again, this evening, on the couch.

Domina made me feel that where my thoughts are concerned, she is the bus driver and i am her passenger! Instinctively, it was overwhelmingly pleasurable becoming instantly aroused! Noone makes me feel so alive and happy as Domina does!

Now i understand why i am a thought puppet to the will of my beloved Domina Shelle. My recollection is fuzzy but i distinctly recall feeling blissfully mindless, incapable of moving, and unable to rationalise who i am. Then Domina explained some truths to me and as the revelations hit me all i could feel was wave after wave of euphoria, as i submitted and accepted Her suggestions. This is one

amazing mind f\*ck and i'm still on a high as i write this, Thank You Domina for opening my eyes to the true reality of my situation!
