Description

Session: 16 minutes

Category: Sissy-Brainwashing-Mind Control

It's time for a little sissy puppy play. Get naked and prepare for an arousal that will overwhelm your mind and body. After placing you into a deep SUBMISSIVE trance, I'll trance-form you into My horny little slave puppy. you will love playing, My puppy... go ahead and obey, show Me what a good puppy always does...you already know how much you love losing all control. Be a goodgirl and listen for your Domina NOW! Can you say woof woof?

i have to say, this wasn't quite what i expected to experience.... In all honesty, i've never really gotten into the whole puppy play; not because it is bad in any way, just that it's not my style of play. However, Domina wanted this to be part of the calendar, so what else could i do, except lay back and listen, and allow Her to play with Her good sissy puppy? i'll admit, i'm still not overly keen on being transformed into a puppy, but i do love this file! The way Princess plays with Her sissy's mind, which becomes completely feeble thanks to Her words, is such a pleasure rush. i absolutely love Her tone, and the way She so very carefully chooses Her words, to make the experience a true pleasure, even though "it's not my thing." Does She make me feel i want to be Her puppy slave, over the longer term? Not really, no... Does She make me feel small, slightly mentally restricted, and driven by more animalistic urges? Oh heck, yes! i still

have no desire for this to be a full time thing, but i do love to be spoken to by Her, in this way, and for Her to make me feel so mentally limited, again and again. i loved this overall, far more than i initially cared to admit, just because i love to feel so far beneath Her. Her puppy has no need to think, only to feel, and do as they are told.... That alone makes this file an experience of true submissive bliss, and keeps me coming back, yet again. Woof! If i could make one plea, i'd beg of Her to treat me this way, again and again, without the actual puppy aspect being part of the play.

I tried both files. the regular version and the sissy version, and I must say I like this file even more! The idea of combining to arousing fantasies, maybe fetishes, has so much potential. One reminds me of the other, one enhances the other. I love this idea of a sissy puppy lying now exhausted on a pink pillow, dreaming of all the tricks it learned. Woof! please teach me more!

i love Domina plan to create additional sissy versions of Her casual files. So this is the first one and it is the perfect combination and sissification and puppy play. Her word took me down deep and easy, probably my mind wasn't objecting to the normal used good boy terms.. instead a sissy fitting good girl is used and other phrases that let me easily reach a mindless obedient state, the state of a lil dumb sissy puppy.. giggles... that file is my favorite puppy file by now! Thank You my Domina for taking Your sissy slaves into account.

i didn't expect that such a short file would be so powerful! i was totally feeling like Domina's little puppy and had a lot of fun following Her instructions!
