Description

XXX are Mine (54 minutes):

Let Me tell you a secret, My pet, I have passion for science and I particularly love it when a figure of authority, like Me, can cite a scientific theory and it instantly attains added credibility to those more resistant to My alluring charms. (giggles)

I know it's already so easy for you, as MINE, to accept whatever I whisper in your ear as your truth but when it is supported by rigorous scientific study, then My oh, so seductive words are imbued with greater significance and meaning. Take Semantic Satiation, for example, the psychological phenomenon where the repetition of a word or phrase, within a short time period, results in the listener consciously forgetting the very meaning of that word or phrase.

Imagine the possibilities of using this in the hands of a skilled hypnotist, a sexy young Domina could easily incorporate this with neuro linguistic programming to covertly bypass a listener's defenses giving full access to his subconscious mind. That's right, with some carefully crafted narration, I can implant new behaviors and beliefs in you without your mind ever being aware.

This is what it means to be Mine, and you are MINE, My pet. **you are powerless to resist**

whatever I wish to do to you, and you are here to embrace that whatever I do to you is always in your best interest, because I deem it so. I just can't help Myself, the thought of your reading this now and My knowing how easily I can control you with simple seductive words, makes Me so hot and wet with arousal.

But, best be careful, My pet, playing with a horny Domina that enjoys enticing you with devious mind games comes at a price! **The ecstasy of submissive bliss is never free** and if you willingly venture into My realm then all that XXX are will be MINE. So relax, let go and listen NOW, it will be a mind blowing experience. (Kisses)

One of the most important sessions I can remember... Not that I can remember much. I came out knowing for absolute certainty that every word Domina said was 100% true, and it made me so happy knowing that my Domina wants what I want, for me to be completely owned forever.

What an amazing file created by Domina Shelle. So much going on inside the mind as Domina turns it all on at once. First she explains her psychological experiment using Hypnotic Semantic Satiation as she repeatedly uses a word over and over so that it's affect and meaning starts to lose its own meaning, in this case changing your own sense of self. Secondly she repeatedly has you imagine yourself reflecting back from her eyes disassociating your conscience and subconscious self as you watch yourself fall into the perfect mess for her. Domina uses the most perfect timing of silence between her wonderful words until you fall deeper and deeper just by listening to her speak! I loved this file, I loved her flexing her hypnotic muscle and completely taking over all of my mind. She knows she has you, just slowly reeling you in. This is an amazing session, one that Domina will surely use to build on and continue to impose her will on her experimental subject! I can't wait.

This session is a masterful piece of hypnosis by itself: Techniques of confusion, subliminal messaging, guided thinking and brainwashing are perfectly crafted and merged to hypnotic pleasure.

This session as also an example how the portfolio that Domina Shelle created during the last decade is actually a total work of hypnotic art!

By pulling the strings and triggers from previous sessions, she creates context from everything she's done to my mind before. This multiplies the effects and feelings as all the memories of submitting to Her in the past start to resonate in one single moment.

I am a strong believer that long-term relations between dominant hypnotist and hypnotic subject are the most rewarding. This file is the prove.

I've listened to this many times and it still seems new and fresh. I'm so lucky to be a collared slave owned by Domina Shelle.

This session is a great example of the amazing creativity Domina Shelle possesses. It takes real talent and a thoughtful mind to produce a session layered with meaning and subconscious conditioning. Outwardly, to many, She appears as a sweet angelic figure but dig deeper and You find She also has the mind of a genius, carefully sculpting the wills of Her listeners to fall ever deeper into Her world. Everything in Her world is consensual but the allure and passion She brings to every session makes it so easy to give and bathe in Her words. Like another reviewer noted I would call this a masterpiece if it wasn't for the fact that almost all of Her sessions fall into this category. If you are reading this and wondering if the hype about Domina Shelle is to be believed, my answer to you is an unequivocal YES. If you can let go and embrace Her words She will change your perception and thus your world. ??? are Mine is a gift to the hypno-

fetish and submission community and one you should fully embrace.

OMG what a file. What a completely arousing, mind fuck that was. i have this urgent urge to just loop this and let go of who i am or was or whatever i was before. Domina has created yet another masterful session, a new favorite, that will take you so fucking deep into trance that you will be literally mind fucked beyond your expectations. i can not even come to grips with what just happened in this session. i know i woke up all wet with precum. But that's all i really remember. Domina is amazing. Her control over me and the brainwashing She does is beyond anything you can imagine or comprehend. If You have always wanted to be dominated by a gorgeous woman. A woman as beautiful and sexy as our Domina. Then you must buy this file. you owe it to yourself to explore this session. Let it take you, like it did me, and let it fuck you oh so good. It felt fantastic. As soon as i can, i am going to go lay down, and let Domina have me again. i can not resist this. i can not resist Her. She is my Domina. i am owned by Her. i am Her property. i will never be the same again.

Wonderfully wicked! At least, i think so. It's not an easy session to remember coherently. It certainly FELT wonderful when i returned to the world around me. I feel owned, deeply submissive and devoted to Domina Shelle. And i'd really like to listen again right now...

This is intense. On rare occasions our Domina steps a little closer to the hard side of Domination. Not far, because She's a wonderful, loving and caring Owner. But just enough to smack our subconscious back to the fact that She and only She controls our thoughts and our minds. Wherever Domina leads, i obediently follow. Thank You Domina Shelle for all You do for my weak mind

If a wish granting being appeared to grant me so that Domina Shelle can feed off of the generated sexual energy to stay young, beautiful, healthy, and never have an unfulfilled want."

Domina Shelle has harnessed all her skills in this erotic/brainwashing session. It is unlike any of her sessions. Domina's thoughts and images she places in my mind elicit a euphoric feeling. Thoughts I crave for. The more I crave, the deeper I fall into submission to Princess Domina. This is an extreme session. If you decide to listen, you will be changed. I am under her control and I crave for more.

This is what REAL Erotic Hypnosis is all about, being Seduced and mindfucked by a Beautiful determined powerful Woman. Especially a Woman who knows Her stuff and how to use it expertly. This is heaven which may turn out to be hell once She has Her long sharp nails

deep into my mind, but oh for now its one hell of a ride!

There is no Beautiful Domina more powerful, more erotic and yet so very caring than Princess Shelle. She is THE expert at seduction and Her file is a Masgerpiece. After placing me into a very deep trance, i had no choice other than to succumb and submit totally and completely to Her sensual domination of all of my being. And i am so glad i did!

As a slave to Domina Shelle, it should be no surprise to say that Her mindfuck and brainwashing sessions are some of my personal favourites. I never feel more emotional and physical pleasure than fully giving myself to the hypnosis experience and losing every little thing to Her sheer beautiful control. Thoughts are gone. Body is trembling. The world is nothing but obedience and Her voice. This may seem crazily intense for beginning listeners, but with 'XXX is mine'... I can't explain it better. If you listen to this session, you'll start to know what I mean. Its impossible to even describe. I can only tell you to prepare yourself. Please be aware of what you're signing up for, and if you're like me, learn to accept that you don't have a choice. Choice was never there. For optimal pleasure, you need to give up already. Just stop the talking in your head, lie back, and take it every. single. word. That is the path to follow.
